

Conservatories

A conservatory is the most socially rewarding home improvement you can make. Our range of designs lets you choose the right conservatory for your lifestyle. Lean-to, Victorian, Edwardian, T-shape, P-shape and combinations offer almost limitless potential. Study, playroom, sun lounge, home office, dining room extraordinaire, games room, lounge extension; your conservatory can be whatever you want it to be. Whatever your dreams, we have the styles, the products and the expertise to make them come true.

aluplast inside

The **aluplast** group is one of the most dynamic international producers of window profile systems and is today the third largest single systems brand in Europe. Nearly 1400 employees develop, manufacture and sell systems for windows, doors and roller shutters throughout Europe. **aluplast** has 10 manufacturing subsidiaries in Europe which will process around 150.000 tonnes of PVC-u in 2009. aluplast has 1600 fabricator customers who together produce approximately 10 million windows per annum.

aluplast products have an enviable reputation for innovation, reliability and real value, When you choose an **aluplast** Approved Window Centre you get the best of both worlds:- the kind of knowledge and attention to detail that can only be provided by a local specialist together with the backing of a leading international brand.

Your **aluplast** Approved Window Centre:-

Ideal 70 windows, doors & conservatories for your Ideal Home

PCV-U Window & Door Systems

Ideal PVC-U Windows and Doors

The frames of our beautiful windows and doors are made from low PVC-U so they don't warp, flake or rot like timber or corrode like metal. They never need painting and are easily cleaned and maintained. A wide choice of styles, glazing options and finishes are available and our windows and doors will compliment almost any home.

Windows

You can choose from classic white, elegant rosewood or stylish golden oak effect frames with clear, patterned, Georgian bar effect or leaded light glazing, all using energy efficient low emissivity glass. We can even offer you glass that cleans itself!

Energy Window

Energy Index (kWh/m ² year) Energy Index certified by BfRC and based on UK standard window. The actual energy consumption for a specific application will depend on the building, the local climate and the indoor temperature)	2 UK
The climate zone is:	
Thermal Transmittance (U _{window}) Solar Factor (g _{window}) Effective Air Leakage (L _{faktor})	1.4 W/m ² .K 0.44 0.0 W/m ² .K
